

“Zeeland has an excellent business climate with hard-working and motivated employees. In addition, the land is relatively inexpensive.”

Huub Beelen
Managing Director
Limagrain Benelux

“In Zeeland we are close to world ports Antwerp and Rotterdam, we have excellent road connections into the rest of Europe and at the same time we benefit of the no-nonsense attitude, dedication and solidarity of the people here with the organizations they work for. That’s why we are very pleased with our location in Zeeland.”

Paul Hartendorp
Managing Director
Timesavers International B.V.

“These past years we have been a member of the Smart Delta Resources (SDR) platform. The platform offers outstanding opportunities to strengthen the position of our global enterprise, in addition to the prospect of collaboration with existing and potential new businesses in Zeeland.”

John Wiskerke,
Director Raw & Supply Chain
Lamb Weston / Meijer

“Zeeland was chosen due to its ideal location: it has direct maritime and mainland Europe access. Due to these circumstances, we are also located in one of the largest chemical clusters of Western Europe.”

Anton van Beek
President and Chairman
of the Board
Dow Chemicals Benelux

ZEELAND**

INVEST IN ZEELAND

Invest in Zeeland supports companies who are interested in doing business in Zeeland. Invest in Zeeland is facilitated by the regional development agency for Zeeland: NV Economische Impuls Zeeland (Impuls). Through Invest in Zeeland we can assist you as you settle in the region. We can provide you with useful information, refer you to the relevant institutions and offer relevant regional advice - free of charge.

Invest in Zeeland is partner in the Invest in Holland network - a close collaboration of NFIA, regional development agencies, like Invest in Zeeland, and a number of large cities – together we provide support, not only to new foreign investors, but also to existing foreign investors that already have one or more operations in the Netherlands. The Investor Relations (IR) Programme aims to make it easier for businesses to grow and thrive in the Netherlands. Here is what we can do for you:

Talent The IR Programme is here to help your company find the talent with the skills you need for your operations. We make sure any international employees have a soft landing in the Netherlands, by assisting with visas and work permits, providing cross-cultural advice and linking to international schools.

Introductions The IR Programme can introduce you to Dutch government organisations at the national, regional and local levels and bring you into contact with commercial service providers, such as consultants, agents, lawyers, and a wide variety of regional, national and international networks that are relevant to your company.

Subsidies The IR Programme helps execute new investment and development projects, find and apply for subsidies, and assist expanding companies in many other ways. If you have any questions, our door is always open.

Advocacy The IR Programme serves as a channel through which you can share your views and experiences concerning the investment climate in the Netherlands with the Dutch government. We collect your feedback, submit it to relevant government departments and use it as input for governmental decision-making.

Networking With the IR Programme, you can gain access to dozens of national and regional events organised each year, ranging from seminars and conferences to networking dinners, roundtable sessions and individual update meetings with representatives from the Dutch government. We will even help you make individual arrangements for tailor-made support and advice.

Research Our IR Programme is equipped to provide guidance on the network of public-private partnerships that flourish in the Netherlands. For example, we can provide insight into R&D incentives and direction on partnerships to maximise incentives. We also help link education, government and business for assistance in everything from pooling talent to addressing the need for technical skills.

Benchmarks The IR Programme can be a valuable partner in helping you support your business case for expansion of international activities in the Netherlands. We provide tools and input for cost and location benchmarking, help recruit talent and promote your company's presence in the Netherlands to increase company recognition and brand awareness.

“Invest in Zeeland continually managed to put us into contact with local councils and decision makers. This makes an international investor feel welcome in the Netherlands.”
